

A COMING ATHLETE.

It is pleasant to record the fact our young townman, Russell Bergholt, succeeded in winning the hundred yards dash of the Tuxis meet at Calgary, last week in the splendid time of 10 1-5 seconds. The Canadian record is 9 3-5 seconds. At Olds on Monday last, Russell also succeeded in winning the hundred yards' dash open to boys of 17 and under, and not contented with the laurels already won entered the hundred yards' open to all and captured the first in that, too.

A ladies' glove has been found and left in the Pioneer office, which may be recovered on calling.

Baseball

Didsbury won the game from Olds, at Olds on Friday May 22nd by a score of 11 to 2. Game was featured by a two bagger by Wyman and a three bagger by Evans in the ninth inning.

Stauffer pitched a splendid game for Didsbury, fanning ten men and yielding only three hits.

Campbell started for Olds but was derricked in the third inning when Cook walked, Reiber singled and Wyman and Nowak walked, Cook scoring. Evans got a life on a fielders choice. Nowak going out at second and Reiber scoring. Wyman came home on Clemans' single and Liesemer went out. Campbell to Hinton, three runs and two hits.

In the ninth inning Cook singled, Reiber flew out to left field, Wyman hit a two bagger, Nowak was hit by pitched ball, and Evans hit a three bagger and scored on Clemans' fast single.

Two Good Shows at the Opera House.

Tom Mix, beloved king of the saddle, and "Tony," his wonder horse, are coming to the Didsbury Opera House on Saturday, May 30, in the William Fox screen version of "The Lone Star Ranger," the popular narrative from the pen of Zane Grey.

It is the story of the life of the daring Texas Rangers who went out "to get their man" despite hazard and obstacle. It is such a stirring hard riding part, replete with romance, that has made Tom the favorite film actor he is.

Course on Bacon Hogs.

A short course on bacon hogs, for the benefit of the hog breeders of the central part of the province, will be held at the following places.

Didsbury June 8 and 9, Red Deer June 10 and 11, Wetaskiwin June 12 and 13, Camrose June 15 and 16, Stettler June 17 and 18 and error June 19 and 20.

The course will be held under the auspices of the Dominion livestock branch, the Alberta department of agriculture, and the faculty of agriculture of the University of Alberta.

During the first day commencing at 10.30 p.m., at each place there will be discussions on the feeding and management of hogs and demonstration and demonstration on the raising of hogs. During the morning of the second day commencing at 9 o'clock, there will be a discussion and demonstration on the type of breeding hogs. During the afternoon of the second day there will be inspection and discussion on bacon carcasses. The market type hogs used at the demonstrations on the first day, will be slaughtered and brought in for demonstration as carcasses the second day, under the direction of an expert provided by the Dominion livestock branch. Farmers interested in the breeding of bacon type of hog are urged to attend these short courses. It is confidently hoped that much can be accomplished at these short courses to put the swine industry on a more satisfactory and permanent basis.

A Popular Wedding.

A very pretty wedding took place at the home of the bride's parents, on Friday of last week, when Miss Hazel McInnes, daughter of Mr. and Mrs. A. L. McInnes, living 11 miles west of Didsbury, was united in marriage to Ivan Casey of Hartmann. The ceremony took place at two o'clock in the presence of about forty wedding guests and was performed by Rev. Mr. McNutt of Didsbury. The bridesmaid was Miss Tena MacIntyre of Calgary, and Walter McInnes was the best man.

Following the ceremony a reception was held and a buffet luncheon served.

The bride and groom left in the evening, amid showers of confetti and rice, for Edmonton and Jasper Park, where they will spend their honeymoon previous to returning to take up their residence at Hartmann.

Both of them are very popular in the district and the large number of beautiful presents received by them testified in no small degree to the high esteem in which they are held by their many friends.

"Sporting Youth" is a thriller. It will be shown at the Didsbury Opera House on Wednesday, June 3rd.

Only two cars ahead of him, roaring and flaming . . . one skids on a hair-pin turn and dives headlong over a cliff into the raging sea the other breaks a steering knuckle and hurls its luckless driver twenty feet in air. The road lies open, fame, fortune and the girl lure him on. Then his rival's car roars up beside him and the great road race in "Sporting Youth" turns into a grim matter of life and death.

A Romance of the Spanish Main

CAPTAIN BLOOD

by RAFAEL SABATINI

Copyrighted, 1922, by Rafael Sabatini
"CAPTAIN BLOOD," a Vitaphone picture with J. Warren Kerrigan
in the title role, is an adaptation of this thrilling novel.

CHAPTER XX.—Continued

"If they so much as put a shot across my bows, up goes their Deputy-Governor to the yardarm. Your only hope, Colonel, lies in the fact that I shall send them word of that intention. And so that you may mend as far as you can the harm you have done, it's yourself shall bear them the message, my lord."

"I'll see you damned before I do," fumed his lordship.

"Why, that's unreasonable and unreasoning. But if ye insist, why, another messenger will do as well, and another hostage aboard—as I had originally intended—will make my hand the stronger."

"Aye, in God's name, go, my lord," spluttered Bishop, "and make yourself obeyed."

Lord Julian bowed stiffly to the cowering Deputy-Governor. "You understand, sir, that I do as you desire," he said coldly.

"Aye, man, aye!" Bishop assented hastily.

"Very well." Blood escorted Lord Julian to the entrance ladder at the foot of which still swung the Arabella's own cock-boat.

"It's good-bye, my lord," said Blood. "And there's another thing." He proffered a parchment. "It's the commission. Bishop was right when he said it was a mistake."

"I am sorry," Lord Julian said sincerely. "I still do not perceive—blister me if I do!—why you should not have found someone else to carry your message to the Commandant, and kept me aboard as an added hostage for his obedience to your wishes."

Blood's vivid eyes looked into the other's that were clear and honest, and he smiled, a little wistfully. A moment he seemed to hesitate.

"Why shouldn't I tell you? It's the same reason that's been urging me to pick a quarrel with you so that I might have the satisfaction of slipping a couple of feet of steel into your vitals. When I accepted your commission, I was moved to think it might redeem me in the eyes of Miss Bishop—for whose sake, as you may have guessed, I took it. But I have discovered that such a thing is beyond accomplishment. I should have known it for a sick man's dream. I have discovered also that if she's choosing you, as I believe she is, she's choosing wisely between us, and that's why I'll not have your life risked by keeping you aboard whilst the message goes by another who might bungle it. And now perhaps ye'll understand."

"And you tell me this?"
"I tell you because . . . Oh, plague on it!—so that ye may tell her; so that she may be made to realize that there's something of the wa-

fortunate gentleman left under the thief and pirate she accounts me, and that her own good is my supreme desire. Knowing that, she may . . . faith, she may remember me more kindly—if it's only in her prayers. That's all, my lord."

Lord Julian held out his hand. "I wonder whether you are right," said his lordship, "and whether you are not the better man."

"Where she is concerned see that you make sure that I am right. Good-bye to you."

The Arabella sailed within the hour, moving lazily before a sluggish breeze. The fort remained silent and there was no movement from the fleet to hinder her departure.

CHAPTER XXI.

War

Five miles out at sea from Port Royal, whence the details of the coast of Jamaica were losing their sharpness, the Arabella hove to, and the sloop she had been towing was warped alongside.

Captain Blood escorted his compulsory guest to the head of the ladder. Colonel Bishop breathed freely at last.

"A safe voyage home to you, Colonel, darling," said he in valediction, and from his easy, smiling manner you would never have dreamt of the pain he carried in his breast.

On the mole at Port Royal, under the low, embattled wall of the fort, Major Mullard and Lord Julian waited to receive him, and it was with infinite relief that they assisted him from the sloop.

"My life's happiness hangs upon your answer."

"Anyway, it's not for long," growled the Colonel, finding speech at last. "No, by . . ." He emphasized the assurance by an unprintable oath. "If I spend the last shilling of my fortune and the last ship of the Jamaica fleet, I'll have that rascal in a hempen necktie before I rest." He had em-purpled in his angry vehemence, and the veins of his forehead stood out like whipcord. "Come, my lord. We must take order about this, you and I."

They went off together, skirting the redoubt, and so through courtyard and garden to the house where Arabella waited anxiously. The sight of her uncle brought her infinite relief, not only on his own account, but on account also of Captain Blood.

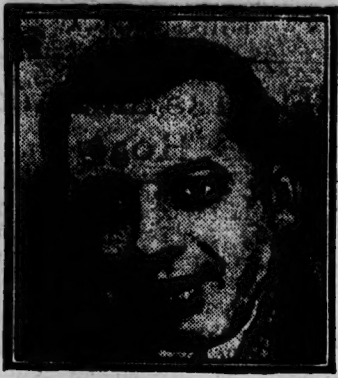

"You took a great risk, sir," she gravely told Lord Julian after the ordinary greetings had been exchanged.

But Lord Julian answered her as he had answered Major Mullard. "There was no risk, ma'am. So that Blood's ship was allowed to pass the fort, no harm could come to Colonel Bishop. Blood pledged me his word for that."

Very early next morning, before the heat of the day came to render the open intolerable to his lordship, he espied her from his window moving amid the azaleas in the garden. He hurried forth to join her. He explained himself by the announcement that he bore her a message from Captain Blood.

"He desired me," he said at last, "to give you a message that should prove to you that there is still something left in him of the unfortunate gentleman that . . . that . . . for which once you know him. It is not easy. Stab me, it is not. He was a man who deserved well. And amongst us we have marred his

How He Discovered Best Constipation Relief

Mr. Joseph F. Glus of Brooklyn, N. Y., writes "In the past 20 years I have been constantly troubled with constipation. Every remedy I tried would work O.K. for a while—but soon failed. The only remedy I have been able to use steadily with good results have been Carter's Little Liver Pills. I don't guess when I take them—I know I'm going to feel relieved." 24c at all druggists.

chances; your uncle, because he could not forget his rancour; you because . . . because having told him that in the King's service he would find his redemption of what was past, you would not afterwards admit to him that he was so redeemed. And this, although concern to rescue you, was the chief motive of his embracing that same service."

She had turned her shoulder to him so that he should not see her face. His lordship's unusual nervousness was steadily increasing. "He thought, then—so he told me—that my presence here had contributed to his inability to redeem himself in your sight; and unless he were so redeemed, then was redemption nothing."

"He thought that you had contributed?" she echoed.

"Aye, and he said so in terms which told me something that I hope above all things, and yet dare not believe, for, God knows, I am no coxcomb Arabella. He said . . . I had gone aboard his ship to demand the instant surrender of your uncle. He laughed at me. Colonel Bishop should be a hostage for his safety. By rashly venturing aboard his ship, I afforded him in my own person yet another hostage as valuable at least as Colonel Bishop. Yet he bade me depart; not from the fear of consequences, for he is above fear, nor from any personal esteem for me whom he confessed that he had come to find detestable; and this for the very reason that made him concerned for my safety."

"I do not understand," she said, as he paused. "Is not that a contradiction in itself?"

"It seems so only. The fact is, Arabella, this unfortunate man has the . . . the temerity to love you."

She cried out at that, and clutched her breast whose calm was suddenly disturbed. "Go on," she bade him.

"Well, then; he saw in me one who made it impossible that he should win you—so he said. Therefore he could with satisfaction have killed me. But because my death might cause you pain, because your happiness was the thing that above all things he desired, he surrendered that part of his guarantee of safety which my person afforded him. If his departure should be hindered, and I should lose my life in what might follow, there was the risk that . . . that you might mourn me. Because of that he bade

Iodine Is Rarest Of Human Elements

Body Contains But One Five-Thousandth Of An Ounce

There is only a tenth of an ounce of iron in the human body, yet that small quantity is essential to life. But compared with iodine, iron is an abundant human element, writes Dr. Milo Hastings, of New York. The amount of iodine in a healthy human is about one five-thousandth of an ounce. Counting ten million people in New York and vicinity this would give us about a hundred pounds of iodine for the community. One man could carry the iodine for the whole ten million of us—but if we let him do so, the other 9,999,999 of us would promptly die.

This sound like a lot of fool theory—but it is as well proved as any fact known to the science of life and health. This minute quantity of iodine is contained in our thyroid gland, and because of it that gland performs its function of controlling the growth and normal development of body and mind.

Pain In The Muscles, Stiffness In Joints, Quickly Subdued By Nerviline

Those who have tested out numerous liniments will agree that where something is needed to dislodge a deep-seated, more or less chronic condition there is nothing to compare with Nerviline. It's because Nerviline penetrates so deeply, because it has about five times the strength of the ordinary oil preparation, it has come to be known as King over all Pain. For Rheumatic conditions, muscular and joint stiffness, Nerviline works wonders. A trial proves this. Get a 35-cent bottle from your dealer to-day.

Another Old Custom Passes

Whip-Women Of London Leave Old Covent Garden

The whip-women of Covent Garden are going to abandon the precincts of this famous produce market for the same reason that the village blacksmith is becoming an automobile salesman. The whip-women are among the picturesque denizens that go along with this most picturesque market square, and for the last 300 years an unbroken line of members of their families have checked the whips of the produce growers who frequent this market.

This concession of whip checking, which has supported many families for so long a time, was granted to six ancestors of the present-day whip-women in the sixteenth century when Covent Garden was really a convent garden of the Monks of Westminster outside which the farmers brought their garden truck to sell.

In that century half a dozen whip-women took charge of the whips of the farmers to keep them from the hands of thieves, and collected a penny from the owner at the end of the day. The number of whip-women has grown to 12 because some women left their share of the concessions to two daughters, but even though the price of checking whips is now threepence, the whip-women of today cannot make a living, they say.

Socialism and Capitalism

The Dreamers Who Would Upset the Present Social Order

If there were no need of betterment there would be no need of politics. But it is a long leap from the proposition that capitalism has not produced an earthly paradise to the proposition that it must therefore be replaced by a totally different system founded on a theory of which nothing is known but that its champions disagree among themselves as to what it means, and that the attempt to put one version of it into practice has resulted in a frightful national catastrophe.—London Daily Telegraph.

PAINS ACROSS THE BACK

Relieved by Lydia E. Pinkham's Vegetable Compound

Mitchell, Ontario.—"I have taken your medicine for a number of years. I do not take it steady all the time, but I am never without it. I always keep it in the house. I took it first for pains in the abdomen and bearing-down pains, headaches and pains across the back. I have my home to look after and many a day I could not get up at all. I saw the advertisement in the paper about Lydia E. Pinkham's Vegetable Compound, and Mrs. John Miller told me about it, too. Every time I take it, it makes me feel better and I always recommend it to my friends. I am willing to answer letters from women asking about this medicine and you may use this letter as a testimonial."—Mrs. F. J. WASSMANN, Mitchell, Ontario.

The merit of Lydia E. Pinkham's Vegetable Compound is told by women to each other. Many women know by experience what this medicine will do and they are anxious for others to know.

Such testimony should cause any woman suffering from the troubles so common to her sex to give this well-known medicine a fair trial.

Do you know that in a recent canvass among women users of the Vegetable Compound over 220,000 replies were received. To the question, "Have you received benefit by taking this medicine?" 98 per cent. replied "Yes."

This means that 98 out of every 100 women are in better health because they have given this medicine a fair trial.

Weak, Lost In Weight

—Levy's Studio

WM. E. BRUSH

Windsor, Ont.—"For over six months I was in ill health—was not able to do a day's work. I got very weak and lost in weight, could not eat, suffered from poor circulation, chilly all the time and had a slight cough. I doctored but still kept going down and everyone thought I was going into a decline. I finally began taking Dr. Pierce's Golden Medical Discovery and thru the use of this medicine I was completely restored to good health. I gained in weight, my circulation improved and I could eat. GOOD NEWS FOR RHEUMATIC PEOPLE

Now Known That This Trouble Must Be Treated Through the Blood

The most a rheumatic sufferer can hope for in rubbing something on the tender, aching joint is a little relief. No lotion or liniment ever did or ever can do more than this. The rheumatic poison is rooted in the blood. To get rid of it you must treat it through the blood. Any doctor will tell you that this is true. If you want something that will go right to the root of the trouble in the blood, take Dr. Williams' Pink Pills. The whole mission of this medicine is to purify and enrich the blood, and when they do this all blood troubles, including rheumatism, disappear. Among those who have proved the value of Dr. Williams' Pink Pills is Mrs. Annie Wright, Woolchester, Alta., who says: "I was a sufferer from rheumatism for six years, and during most of that time my life was one of misery. I tried several doctors, and many remedies recommended, but never got more than temporary relief. The trouble seemed to affect my whole system and I was badly rundown and suffered from headaches as well. Finally I was advised to try Dr. Williams' Pink Pills, and through these I found complete relief and to-day I feel like a new person. I can therefore strongly recommend Dr. Williams' Pink Pills to anyone suffering as I did from this trouble."

You can get these pills from any medicine dealer, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

SUNDAY SCHOOL LESSON

MAY 31

PETER AT LYDDA AND JOPPA

Golden Text: And they went forth, and preached everywhere, the Lord working with them, and confirming the word by the signs that followed. Mark 16:20.

Lesson: Acts 9:32-43.

Devotional Reading: Isaiah 55:1-7.

The Text Explained and Illumined

The Cure of Aeneas, verses 32-35. Just as Peter and John had gone to Samaria to look into the work being done there by Philip the Evangelist, so Peter undertook, as we are now told, a journey of inspection to the Christian communities in the cities of the Maritime Plain. Jerusalem was still the centre, and the apostles there must be kept in touch with the progress of the Kingdom elsewhere; therefore, as Chrysostom expressed it, like a commander of an army, Peter went about inspecting the ranks. In the course of his tour he visited the saints at Lydda. We apply the word saint to one who is distinguished by extraordinary piety, but Luke uses it here as synonymous with the word Christian. The saint was one who was trying to obey the will of God and was working in His Kingdom; every disciple was a saint in that sense of the word.

"Not the world-scorning anchorite. Not the new babe in garments white—Not these, God's types of saintliness; But he who grasps the world for good."

Could Hardly Live for Asthma, writes one man who after years of suffering has found complete relief through Dr. J. E. Kellogg's Asthma Remedy. Now he knows how needless has been his suffering. This matchless remedy gives sure help to all afflicted with asthma. Inhaled as smoke or vapor it brings the help so long needed. Every dealer has it or can get it for you from his wholesaler.

Cheapest of all Oils.—Considering the qualities of Dr. Thomas' Eclectic Oil it is the cheapest of all preparations offered to the public. It is to be found in every drug store in Canada from coast to coast and all country merchants keep it for sale. So, being easily procurable and extremely moderate in price, no one should be without a bottle of it.

MINARD'S Relieved His Rheumatism

Here is one of many letters testifying to the relief Minard's gives in cases of rheumatism. "I have been relieved of rheumatism by your liniment. I thought I would never be free from this malady and I tried many remedies, but Minard's was the only one which gave me relief."

ALPHONSE RICHARD, St. Samuel, P. Q.

Minard's is also splendid for stiffness of the joints, sprains, bruises, etc.

Cleans Like China

When you use SMP Enameled Ware Utensils, you never need to scrape, scour and scrub the way some wares demand. Hot water, soap, a cloth—that's all you need to clean them. It washes like china, has the cleanliness and surface of china, but wears like steel. Don't be the slave of your cooking ware; equip with clean, pure sanitary, lasting

Municipal Co-operative Hail Insurance.

Here are facts that will pay the farmer—and pay him well—to consider.

That in the last six years, the farmers' own co-operative plan, The Municipal Hail Insurance, carried 57 per cent of the total hail insurance written in Alberta.

That out of every dollar hail insurance tax imposed under the Municipal Hail Insurance plan, 25 cents was returned to the farmer in payment of losses, 8 1/3 cents went to the reserve fund and 62 2/3 cents paid all costs of administration.

Support your own co-operative plan.

A meeting of the Didsbury Game Protective association was held on Tuesday evening to discuss matters in connection with the campaign now being carried on against the crow, magpie and gopher. From reports handed in by Mr. Miller, very satisfactory results already are being achieved. It was felt that still further efforts and more volunteers are needed to reach the objective.

It was decided to set aside the sum of \$175 for the destruction of crows and magpies and \$100 for gophers, but this expenditure may be added to providing results justify and a financial appeal is expected to.

A NEW ZEALAND CLUB ORGANIZED

On Tuesday, May 26th, about twenty young people gathered at the home of Mr. and Mrs. Wm. Dageford, where a new club was organized, namely, "The Twilight Club." The evening was spent in playing outdoor games. Picnic lemonade were served and arrangements made to meet at Mr. and Mrs. T. Falkner's home next Tuesday night. Any person over 15 years of age may join.

C.G.I.T. Camps.

One of the most important features of the Canadian Girls in Training work in Canada is the camp work. This year there will be three provincial Training camps and sixteen district training camps in Alberta alone where the Canadian Girls in Training of the province may spend a helpful happy holiday. A very carefully planned program of study, sports, swimming and camp craft, not to mention the camp fires and all that they mean is planned for each camp. These camps are directed by a trained leader with a camp staff of competent assistants. The three provincial training camps are as follows: 1. Older girls' camp held at Sylvan Lake, July 13th to 23rd for girls from 14 to 18 years. This camp will be for the groups of Southern Alberta and will be directed by Miss Katie McCrimmon, Provincial Girls' Work Secretary.

The Northern Alberta Older Girls' Camp will be held at Fall on Lake Wabamun July 23rd to August 3rd. Girls from 15 to 18 years of age may attend this camp. Miss Katie McCrimmon, Provincial Girls' Work Secretary, will be in charge of this camp.

The Leadership Training Camp for leaders of Canadian Girls in Training will be held in connection with the provincial Summer School at Sylvan Lake, August 3rd to 13th. The girls' work Section of this camp will be in charge of Miss Mary Allison, National Girls' Work Secretary for Canada.

A Prominent Speaker Coming.

Word has been received by the Joint organization Committee of the dairy, livestock and poultry pools that W. J. Park, president and director of the Fraser Valley Milk producers Association, will come Alberta for one week to assist the pools in their drive for membership which starts June 8th. It is expected that Mr. Park will be here for the first week of the drive. He will address meetings at several places in the province. Mr. Park has had much to do with the success in co-operative marketing of the dairy products by the Fraser Valley Association. The farmers in this pool have been getting from three to four cents more for their butterfat than the Alberta farmers, and generally speaking have been able to get about seventy percent of the price the consumer paid for their product, as compared with about fifty percent which the Alberta producers get. Mr. Park will be able to give some very interesting information about co-operative marketing to the Alberta farmers.

Here and There

It is expected that the present
year will break all records in the
movement of Eastern trans-atlantic
travellers. It is estimated that over
a quarter of a million Americans
and Canadians will travel to Europe
during the season.

The supply of farm hands for
Western farms is not equal to the
demand and the shortage is becom-
ing more pronounced as the season
progresses, in spite of the large num-
ber of immigrants coming from Eu-
rope for this purpose.

During the eight months ending
March 1925, 187,798 cars of grain
were passed by the government in-
spectors for the western provinces.
This number has only been exceeded
four times in the past twenty-four
years. Of the total for this year
105,555 were on Canadian Pacific
lines.

According to a statement issued
by the Bureau of Statistics, Can-
ada's production of commercial
fruits for the past year showed a
decrease of \$8,902,912 in value as
compared with 1923. The total
value of fruits grown in 1923 was
\$23,169,343 and in 1924, \$24,266,431.

There has been a decided increase
in the first quarter of this year in
the ordinary life insurance written
in Canada as compared with that of
the corresponding period in 1924.
The increase in March over Feb-
ruary was from twenty-eight to
thirty-five million dollars.

According to the first weekly re-
port issued by the Canadian Pacific
Railway, the crop acreage this year
will be slightly less than last. It
is estimated that Manitoba will sow
about 2,643,000 acres this year, Sas-
atchewan 8,555,183 and Alberta
2,721,689 making a total area of
13,919,872 as compared with 14,
153,905 in 1923.

Very encouraging reports as to
the general agricultural outlook in
Southern Alberta have been re-
ceived from Canadian Pacific Agents
around Calgary. Much more progress
has been made with seeding
than was anticipated and conditions
are described as either "splendid",
"fine" or good and in every case
plenty of moisture in the ground is
reported.

The country is being besieged by
moving-picture stars. Mary Pick-
ford, Viola Dana, Tom Mix, Harold
Lloyd and others have passed
through within the last few weeks,
and explored the Rocky Mountains
and other Canadian attractions. The
latest is Hoot Gibson, who is bring-
ing a large company of movie peo-
ple here to film the Calgary Stamp-
ede as an incident in a "super"
drama.

Where Co-operation Is Needed

The opinion is frequently expressed that Canada suffers from too much Government and legislation, and with a Federal Parliament and nine Provincial Legislatures for something less than nine million people, there is probably some reason for such an opinion being more or less prevalent, and to support the suggestions periodically advanced in favor of the union of the three Maritime Provinces into one, and the merging of the Prairie Provinces, thus reducing the number of Legislatures to five. But whether such amalgamations are now feasible is another question, and, in view of the fact that ultimately Canada will have a population of many times nine millions, it is open to argument whether such combinations would be wise in the long run.

But that there is room for a much larger measure of cordial co-operation in matters of legislation between the Federal Parliament on the one hand and the various Provincial Legislatures on the other hand, and between the Legislatures of adjoining Provinces, and, in fact, between all Provinces, is hardly open to serious discussion. The framers of the Act of Confederation did their work exceedingly well, but the B.N.A. Act should not be regarded as the laws of the Medes and Persians, unalterable. Constitutional enactments, however wise in 1867, are not necessarily suitable a century or even half a century later.

It is proposed to call a conference of Provincial representatives to give consideration to suggested amendments to the B.N.A. Act designed to curb the arbitrary veto power of the Senate over legislation which meets the approval of the elected representatives of the people in the House of Commons along lines somewhat similar to those which finally had to come in Great Britain in order to restrict the power of the House of Lords. There are, however, other subjects of equal or even greater importance which might well receive attention at such a conference.

For example, not only should the powers of the Senate come under review, but the constitution of that body if it is to be continued as an integral part of our legislative machinery. It stands to reason that the four rapidly growing Western Provinces will not be content for all time to have their representation in the Senate limited to that of the three small Maritime Provinces, namely, twenty-four Senators for Manitoba, Saskatchewan, Alberta and British Columbia, and a like number for Nova Scotia, New Brunswick and Prince Edward Island. Certainly if such a basis of Senate representation is to be maintained much longer, then the powers of the Senate must be greatly restricted.

Again, while the B.N.A. Act clearly defines the respective spheres of the Dominion Parliament and the Provincial Legislatures in regard to many subjects, it confers on both Federal and Provincial bodies legislative and administrative authority in regard to certain other matters, with the result that there is constant conflict and continual appeals to the Imperial Privy Council, and hardly a year passes that decisions are not rendered declaring laws passed at Ottawa or in the Provinces ultra vires, that is beyond the power of the enacting body to pass. It is time these clauses of the B.N.A. Act were clarified.

The bringing about of such changes takes time because both Federal and Provincial authorities are notoriously loath to abandon any slightest right, power or privilege which they now enjoy, and furthermore any change in the B.N.A. Act involves not only action in Canada, but also by the British Parliament, because, like Australia, Canada does not possess the power to amend its own constitution. In the meantime, there should be greater disposition on the part of the Dominion Parliament to co-operate with and assist the Provinces to realize their wishes in regard to matters of prime importance to them but over which the Dominion also exercises certain powers.

Some of the Provinces passed laws to protect their citizen from being victimized by glib-tongued salesmen of stock in worthless companies such as the Hearst Music Company, wildcat mining and oil companies, etc. These laws have been declared invalid insofar as they apply to companies having Dominion charters, so when any one of these companies out to fleece the public are denied a Provincial charter, or the right under such a charter to sell stock, they simply take out a Dominion charter and defy the Provincial authorities.

Apart from the fact that the Federal authorities should be just as anxious as any of the Provincial authorities to protect the people of Canada from these unscrupulous peddlers of worthless stock, they should be more than willing to co-operate with the Provinces in upholding the law and maintaining proper respect and dignity for the law. Unfortunately, Ottawa is not thus co-operating with the Provinces, and numerous instances are arising where Provinces have turned down company promotion schemes for good and substantial reasons, only to have Ottawa promptly grant a Dominion charter.

The Dominion Government should not only protect the Provinces from this open contempt of their laws, but Ottawa should enact legislation safeguarding the public from being victimized by companies operating under Dominion charters in the same manner that the Western Provinces have in regard to Provincial charters.

Human Values

Norah Holland died in Toronto the other day; and the announcement was compressed in a paragraph. Yet Norah Holland was one of the finest and best beloved of Canadian poets, a sweet singer whose songs gushed from her heart, and whose work made life better and richer. We sometimes get strangely mixed in human values.—Ottawa Journal.

Manitoba Butter Shipments

Three Times the Quantity Shipped For First Three Months Over Same Period Last Year

Nearly \$500,000 worth of Manitoba butter has been shipped from Winnipeg since January 1, 1925, to the middle of April. The shipments totalled 60 cargoes, averaging 400 boxes to the car of 56 pounds to the box. According to the provincial dairy commissioner, this is over three times the quantity shipped in the corresponding period of 1924. Shipments were made to the British Isles, Toronto, Montreal, Halifax, Calgary, New York, Chicago and Detroit.

She Was Obligated To Take To Her Bed

Then Mrs. J. Derocher Used Dodd's Kidney Pills

Quebec Lady Suffered From Kidney Trouble and Found Complete Relief in Dodd's Kidney Pills.

South Stukely, Que.—(Special).—That relief can be obtained from all kinds of kidney disorders by using Dodd's Kidney Pills is again evidenced by the testimonial received from Mrs. J. Derocher, a well known and highly respected resident of this place. She writes:

"I was attacked with a malady that at first I did not think was serious until about the beginning of last March, when it became evident that I could do nothing. I consulted a doctor and he told me I was suffering from kidney trouble.

"I was obliged to take to my bed." I had a Dodd's Almanac in the house and read a few of the testimonials, then bought 3 boxes of Dodd's Kidney Pills and a box of Diamond Dinner Pills.

"I can assure you that they have made me well, and the pain in my back between the shoulders is gone. I am completely relieved of my trouble."

Development Of Radio

Send a 100 Words a Minute Across Atlantic

Radio messages may soon flash across the ocean at the rate of 1,000 words a minute from a single transmitting station, is the prediction of trans-Atlantic radio officials in New York.

At present a radio message can be clicked off at the rate of 100 words a minute, or slightly more. The development of a machine to speed up the ocean messages, and thus help reduce rates, is now in progress.

From 20 to 30 per cent. of the messages sent to and from Europe nowadays flow through radio channels, the rest taking the course of the 17 cables on the bed of the Atlantic.

Spanish Duke Is Democratic

Has Divided Two of His Estates Among Tenants

The Duke of Alba has ordered two of his estates cut-up and the land apportioned among the tenants on a deferred payment plan. The duke is said to have been inspired by the principles of democracy and hopes his example will be followed by other members of the landed gentry.

The Duke of Alba comes from one of the oldest and proudest families of Spanish nobility, and he represents, he has said, the fifteenth generation of the descendants of Christopher Columbus, and now is the only living descendant of the discoverer of America.

Defends the Senate

Senator Ross Believes Second Chamber to be Necessary

Senator W. B. Ross, in speaking on the proposed resolution dealing with constitutional changes, said it was for the provinces to say if there should be any change in the Treaty of Confederation.

With no Senate and no veto, Canada would have only a body of men who would do just as they pleased with the country. Two hundred men would be no less a tyrant than one man unchecked.

Manitoba Dairy Products Show

To Be Held in Connection With Provincial Exhibition at Brandon

Preliminary arrangements are now being made for the holding of the annual dairy products show in connection with the provincial exhibition of Manitoba, to be held at Brandon, June 29 to July 3. Liberal cash prizes, as well as the usual silver cups and medals and diplomas, have been provided for the different classes, and judging from the interest already shown in this fair, the entry list is expected to be the largest ever received.

Prairie Fisheries

Catch Had a Marketable Value Of \$2,054,162 Last Year

The product of the commercial fisheries of the three prairie provinces in 1924 had a total market value of \$2,054,162, apportioned as follows: Manitoba, \$1,232,563; Saskatchewan, \$482,492; and Alberta, \$339,107. Compared with the previous year the value of Manitoba's fisheries product increased by \$211,968, or 21 per cent.; Saskatchewan's by \$195,849, or 68 per cent.; while Alberta's decreased by \$99,830, or 23 per cent.

Oldest Choral Society

That the oldest musical society in the world flourishes today in the City of London was a fact surprising to the majority of the readers of this paper the other day. The Madrigal Society, which meets at Carpenters' Hall for the cultivation of old English music, has an unbroken record of 184 years of sociable singing.—London Daily Mail.

Grain Inspections in Western Canada

Grain inspections in Western Canada during the eight months ending March, 1925, were 187,798 cars. Only four times has this number been exceeded during the last 24 years. Of these 105,555 cars were on Canadian Pacific Railway lines and 81,243 on lines of other roads.

Increase in Population

According to an estimate made by the provincial government, the population of Alberta at the end of 1924 was 640,000, an increase of 52,000 over the census of 1921. It is also estimated that 60 per cent. of the population of the province is of British origin.

DISCUSS DETAILS OF THE RETURN OF RESOURCES

Ottawa.—The committee comprising representatives of prairie provinces and the Dominion Government will sit in conference frequently during the next few days on the details of the return of the natural resources, now controlled by the Dominion, to the provinces.

Hon. Charles Stewart, minister of the interior, chairman, indicated that there was a multitude of matters to be considered by the committee, including the land to be set aside for Indian reserves, and the land to be assigned to the Hudson's Bay Company.

The actual terms of settlement were not, he intimated, ready to be announced at the present time. Whether or not the final settlement could be disposed of by parliament this season would depend upon the progress made by the committee during the next few days.

New Governor For Australia

Sir John Baird Appointed to Succeed Lord Forster

Melbourne, Aus.—Premier Stanley M. Bruce has announced that Sir John Lawrence Baird has been appointed governor-general of the Australian Commonwealth in succession to Lord Forster, who has held that office since 1920.

Right Hon. Sir John Lawrence Baird, who is the second baronet of that name, has had a distinguished career in diplomatic, military and parliamentary service. He was born in 1874, and served in various consular posts in Europe and Africa. He was political officer with the Abyssinian army in Somaliland in 1904, and an intelligence officer with the British army in the great war, winning his D.S.O. in 1915. He was Unionist M.P. for Rugby from 1910 to 1922 and was parliamentary secretary to various departments of the British Government up till 1922, and minister of transport from 1922 to 1924.

Will Not Hasten Case

Manitoba's Appeal Against Northern Railway Not Coming Before Privy Council

London.—An application to have the appeal of the province of Manitoba vs. the Canadian Northern Railway expedited before the judicial committee of the privy council was denied. The time allowed respondents to prepare their case had not yet expired. Manitoba is appealing on the question of whether jurisdiction to fix rates on the Manitoba Northern system rests with the province or with the Dominion board of railway commissioners.

Trees For Delegates

Amawalk, N.Y.—"To symbolize the ever strengthening bonds of friendship between the democracies of the world," Police Commissioner Enright, of New York, gave a young tree to each of the seventy foreign delegates to the international police conference here. Such trees as are not thrown overboard just outside the statue of Liberty, will be transplanted in the delegates home towns.

Improve Housing Conditions

London.—First reading was given in the House of Commons to the bill introduced by E. Thurtle, Labor member for Shorelditch, providing for municipal authorities acquiring unoccupied houses for the purposes of relieving overcrowding. Mr. Thurtle said large numbers of people were living in houses unfit for human habitation.

Prince Extending African Visit

Capetown.—It has been officially announced that the Prince of Wales tour of South Africa will be extended one week. He will leave Capetown for South America July 29, instead of July 22, as planned, and will thus have a week's rest at Capetown after his tiring African tour.

Irish Flag Returns to Sea

Hoboken, N.J.—The Irish flag will return to the sea when the North German Lloyd steamer, Bremen, departs on its initial trip for Ireland. This will be the first time in 500 years, it is said, that the Irish flag has been flown at the mast of a vessel at sea.

No Agreement Reached On Disarmament Note

Paris.—British and French differences regarding the phrasing of the disarmament note to Germany are proving more difficult to adjust than had been expected. The council of ambassadors have been postponing its meetings repeatedly on this account, and again adjourned without fixing another date for the meeting. It is hoped, however, that an Anglo-French accord will be reached soon regarding the disarmament note and that the council of ambassadors can dispatch it to Berlin without much more delay.

London Paper Attacks Lord Chief Justice

Official Criticized For Writing Journalistic Articles for Pay

London.—Lord Hewart, lord chief justice of England, has been added to the list of prominent officials attacked for writing to the press. He recently contributed an article with regard to technical objections to peccates in their right sitting in the House of Lords. The Westminster Gazette says the gist of the discussion surrounding the question of officials contributing to the newspapers is that "the man in the street, who sees those ponderous articles and hears that enormous fees are paid for them, is beginning to wonder if it does not lower the dignity of public life when highly paid servants supplement their salaries by popular journalism."

The salary of the lord chief justice is £10,000 a year.

British Anglicans Discuss Union With Catholics

Delegation of Theologians Will Go to Belgium to Study Question

Brussels.—The Libre Belgique prints a letter received by Cardinal Mercier, primate of Belgium, announcing the arrival at an early date in Malines of a delegation of British theologians. The delegation, which will be under the patronage of the Archbishops of Canterbury and York, will meet a group of Catholic theologians with a view to studying together, in a friendly spirit, the problem of a union of churches.

Persian Independence

London.—That Great Britain had no protectorist aims in Persia, but desired only the independence of that country, was insisted by the Earl of Balfour, speaking in the House of Lords, in his new role of lord president of the council. He answered criticism from foreign sources of Britain's policy in Persia, declaring that it was entirely due to misinformation with regard to oil and other matters.

Allied Debts Problem

Paris.—Premier Painleve, Foreign Minister Briand, and Finance Minister Caillaux held a conference to study the French financial situation, including the question of inter-allied debts, and the decisions which are arrived at will be submitted to the next cabinet meeting for approval.

PLEDGE IS GIVEN FOR GERMANY BY STRESEMAN

Berlin.—Foreign Minister Stresemann provided a shock to France when he delivered a comprehensive statement of German policy in the Reichstag. For two hours Stresemann outlined the principles that will guide the government. He announced that a commercial treaty with the United States would be presented to the Reichstag shortly.

Referring to the continental security pact proposals, Stresemann said that Germany could not admit the permanence of her eastern frontier, where a large slice of German territory has been incorporated within Poland, but that she did not intend to seek revision by force. This statement will shock such Frenchmen as believe that the treaty constitutes a sort of New Testament for Europe, and that revision of its clauses must not be countenanced.

Stresemann simultaneously pledged Germany to honorable observance of the requirements of the Dawes plan, emphasized the importance of the United States financial assistance to Germany, and described the United States as the nation whence the most vital efforts to revive Europe must emanate. He recalled the infusion of American money into German industries and declared that the United States spiritual understanding of Germany was increasing.

Criticizes U.S. Government

Action on Debt is Condemned by London Paper

London.—The Morning Post, commenting upon the action of the United States in soliciting funding proposals from its European debtors, condemns the United States attitude on the question and deplores the present step. The paper describes the action of the Washington Government as "another illustration of the unhappy influence which legislators exercise too frequently these democratic days, in the realm of foreign affairs."

President of Labor Bureau

Geneva.—Edouard Benes, foreign minister of Czechoslovakia, was unanimously elected president of the seventh annual international labor conference at its opening session here.

M. Benes, addressing Labor delegates from 42 countries, expressed optimism regarding Europe's future, but warned that peace policies must be patiently pushed. He said the motto of all democracies should be "pacification, consolidation and reconstruction."

Greenland to Have Own Coinage

Copenhagen.—Greenland, which hitherto has used the coinage of her mother country, Denmark, is shortly to have a coinage of her own. The coins will carry on one side the figure of a polar bear. The bills will be on specially strong paper to withstand the rough handling they will receive in circulation through the Eskimo colonies.

Government Asks U.S. For View on Court Ruling

Ottawa.—The United States Government has been asked by the Canadian Government for its interpretation of the recent ruling of the United States Supreme Court in the matter of diversion of water from the Great Lakes by the city of Chicago. Premier King announced in the house that in view of the divergent unofficial interpretations which are said to have been placed on the court's ruling, he had asked Washington to give its official views on the matter.

Changes On Stamp Tax Act

Amendments Have Been Given Third Reading in House

Ottawa.—Special amendments to the Special War Revenue Act, respecting stamp taxes, has been given third reading in the House of Commons.

The amendments provide for a definition of a cheque which will require the issuer of "wheat tickets" or "cream tickets" or other documents issued by a company to a farmer negotiable at a bank to affix on them a stamp. There will be a minimum stamp tax on foreign bills of \$1.

Under the amendment a person can transfer an amount to his credit from one branch to another branch of the same bank. Money orders or travelers' cheques issued by "banks or any person," under the amendments, will be subject to stamp tax. Cheques not exceeding \$5 will not require the stamp. The amendments become effective July 1, 1925.

In the discussion on the bill, Sir Henry Drayton criticized the whole stamp tax law as being "nasty, aggravating and troublesome."

Getting Busy On Land

U.S. Dry Officers Will Stop Liquor Smuggling Over Lakes

New York.—With Rum Row reported to be dwindling day by day, prohibition enforcement officers are getting busier and busier on land. R. Q. Merriek, divisional prohibition enforcement chief, says the next move will be to cut off the runners operating over the St. Lawrence River and the Great Lakes.

Coastguard officials in charge of the naval blockade report that Rum Row has dwindled to seven closely guarded ships. When the blockade started May 5, 80 ships were at anchor in the Atlantic between Narragansett, R.I., and Atlantic City, they declare.

Forest Fires Cause Loss

Port Arthur, Ont.—Four farm houses are known to have been wiped out and seven or eight others are believed to have suffered by the forest fires which have swept over the Silver Mountain and Whitefish areas on the P.A.D. sub-division of the Canadian National Railways, 50 miles west of this city.

Given Second Reading

Ottawa.—A bill embodying the trade treaty between Canada and Finland, extending to Finland the favored nation treatment in tariff matters, has been given second reading in the house.

TIME FOR ACTION ON QUESTION OF RURAL CREDITS

Ottawa.—"The time has arrived when action should be taken in this matter," declared Hon. H. H. Stevens, in discussing the question of rural credits before the banking and commerce committee of the house. Mr. Stevens opposed a motion to rescind a resolution, passed at a previous meeting, urging upon the government that legislation be brought down at this session for the establishment of an adequate rural credit system.

The motion to rescind was defeated and an amendment by Mr. Stevens correcting technical errors in the original resolution, carried after considerable discussion.

Representatives were received from various mortgage corporations, asking for the right to present their views on the subject. The committee intimated that, if legislation were brought down, representatives of mortgage corporations and rural credit associations probably would be afforded an opportunity to appear before the committee.

Lloyd George Is Silent

Has Already Prepared Plan of Campaign in Belief

London.—The role of sphinx is a new one for Lloyd George, but he is filling it so successfully that he is again becoming the most commanding and interesting figure in British politics.

Liberals who are being asked to subscribe lavishly to the new treasure chest which the party is creating are asking anxiously when Lloyd George is going to emerge from the state of semi-retirement which seems now to envelope him, and announce in public the plan of campaign which he is believed to have prepared.

Lloyd George, of course, will adhere to his policy of free trade and social reform, but the Liberals are going to be terribly disappointed if he fails to emerge from his tent with a good winning platform. His future leadership is going to depend upon his ability to produce one.

Presents Plan To Curb Reckless Driving

Two Reports Should Carry Penalty Says Chicago Man

Ottawa.—As a likely solution to the problem of curbing the tremendous loss of life caused by reckless automobile driving, Colonel H. C. Boyden, of Chicago, addressing the Ottawa Rotary Club, advocated the formation of a control depot in every state or province, where drivers should be licensed and their licenses made something of value to them.

Whenever a driver was exposed to danger through the recklessness of another, he should take the offender's number—and name if possible—and report the incident to the central depot. Two reports against a motorist should carry a penalty or suspension of driving license for a period of 50 or 60 days, a third a year's suspension, and a certain number should result in the cancelling of the license.

Plans Antarctic Expedition

Brisbane, Australia.—Captain George H. Wilkins, explorer, who is now in Northern Australia, intends to lead an Antarctic expedition. He hopes to be in Antarctic water and ready to start on an aeroplane in January, 1926, as preliminary to a big international scheme for meteorological development.

Branch Line Bills Passed

Ottawa.—The two bills providing for the construction of Canadian National branch lines between Bengough and a point near Willowbunch and the Turfledford branch in Saskatchewan, were given third reading in the House of Commons after a brief debate. The bills will be introduced in the senate.

Loss of Taxes

Ottawa.—A delegation representing the rural municipalities of Saskatchewan and Alberta is in the city to complain to the government about the loss of taxes the municipalities suffer through farms purchased for soldier settlers being abandoned and reverting to the crown.

"A FINE BODY OF MEN"

The members of the Royal Canadian Mounted Police shown above are on duty at the British Empire Exhibition, Wembley, patrolling the Canadian Pavilion and, incidentally, showing the visitors what splendid young men the Dominion produces. The party, consisting of ten troopers, under the command of Inspector C. H. Hill, was photographed at Waterloo Station—a part of London exceptionally well known to all ex-soldiers who proceeded overseas and which they still affectionately refer to when they become reminiscent. When the above troopers disembarked at Southampton from the Canadian Pacific S.S. Minnedosa they were warmly welcomed, and although they are there on duty and under strict discipline, they do not find this kind of "active service" by any means unpleasant.

AROUND THE TOWN

Mrs. Alfred Mjolsness returned from Calgary last week, accompanied by her son.

Mrs. H. Amundson, of West Summerland, B. C., is visiting her son, A. W. Millen and family.

Miss Dora Weber, Vancouver, B.C., is spending a week here visiting friends and relatives.

Rev. McNutt is leaving on Saturday for the General Assembly at Toronto. He expects to be home again on Sunday, June 14.

The Bank of Montreal has opened a temporary branch office in the Hub grocery store until other premises are secured. W. T. R. Henderson is in charge, assisted by F. W. McTear.

Rev. George Woods of Olds, superintendent of Christian Homes, will preach in Knox Church, Didsbury, on Sunday, May 31st, at 7.30 at Westcott 11 o'clock. Community Hall three o'clock.

The first prosecution under the Early Closing By-law was made on Thursday last, before J. I. Welsh, J.P., when the proprietor of the American Cafe was fined \$5 and costs for a violation of the by-law.

The local Oddfellows and Rebekahs attended the Presbyterian church last Sunday week, their anniversary day, when special music was rendered by the choir and a very appropriate sermon preached by Rev. McNutt.

Like other parts of Alberta, Didsbury received on Saturday last a heavy downpour of rain, the gauge registering 1.27 in. in just over two hours. Rain has also fell at intervals since that date, the result being the crops and grass are coming along in fine shape.

The tennis courts are now in good shape to play on and quite a few members during the past few days have been taking full advantage of the fact. It may be stated, in addition to the fees published last week, provision has now been made whereby high school students may join on payment of one dollar. Particulars may be obtained from Mr. Boorman.

The new hardware store recently opened by W. G. Leisemer, following the fire which destroyed his former stock, is now complete in almost every line, and local residents can be assured of every requirement being forthcoming. In such a short time as has elapsed since the fire, to have a big stock again on hand says much for the business spirit of Didsbury.

The fire sale being conducted by J. V. Berscht opened on Saturday last with a tremendous rush, and throughout the day a steady stream of customers kept seven clerks constantly employed. Mr. Berscht expresses himself as being well satisfied with the business done, exceeding his expectations considerably. The sale will be continued for thirty days.

Owing to want of time last week, we were unable to record the fact of thirteen teams being put to work on the farm of Geo. Alden, who lies sick in the hospital. The idea originated with the neighbors and the work was carried out with a splendid spirit of co-operation and helpfulness. Fifty acres, we understand, were cultivated and forty seven seeded. Acts such as these need no comment—just emulation.
